About me

Enthusiastic **analytics professional** with 10+ years experience. I have proficiency in BI tools and VBA/Python/SQL programming. I'm passionate about data and data discovery. My role is helping stakeholders in the better decision-making process.

Professional Experience

- Prepared Daily, Weekly and Monthly reports and presentations based on complex data sets from various sources and formats
- Provided operational/financial reports, charts, tables and commentaries for Managers as well as Management Board Members
- Designed and developed Excel/VBA tools and Power BI dashboards
- Managed and coordinated the key financial measurements (revenue, gross profit, costs, sales, volume)
